PROFILE

Electrical engineer specialised in power engineering and freelance web developer. I design both electrical systems (RFID access control, machines, power electronics) and modern, responsive websites. Comfortable from hardware modelling to application deployment, I combine engineering rigour with fast developer execution.

EDUCATION

Period	Degree — Institution	Status
2025 – present	Master 1 in Power Engineering — Faculty of Engineering, UNIKIN	In progress
2025	Bachelor of Engineering Sciences, Electrical Engineering — Faculty of Engineering, UNIKIN	Completed
2026	Python Developer Certification — Udemy	Completed
2019	State Diploma, Mathematics & Physics	Completed

PROFESSIONAL EXPERIENCE

2025 – present : Webmaster — Faculty of Engineering, UNIKIN

- Design and deployment of the Faculty's institutional website.
- Carried out in direct collaboration with the Dean and the Vice-Dean for Research.

2022 – present : Webmaster — Institut Bobokoli de Delvaux

- Design and management of the institute's showcase website.
- Continuous maintenance and search-engine optimisation (SEO).

2025 – present : Graphic Designer — Ticketo

- Design of posters, invitations, and other materials
- Design of the visual identity guidelines

2023 – 2024 : Webmaster — Éditions Madose

- Design of a showcase website featuring an image gallery.
- Content management and editorial updates.

FREELANCE PROJECTS

- **Institut Bobokoli de Delvaux** — responsive showcase website (HTML, CSS, JavaScript).
- **Faculty of Engineering UNIKIN** — institutional website (going live soon).
- **Éditions Madose** — showcase website with gallery and contact details.
- **MIEC Polytechnic UNIKIN** — student-association website (design and management).

ACADEMIC PROJECTS

- **Project Lead (Master 1) — Automatic RFID access-control system.** Design of an access-control system for the faculties of UNIKIN (ESP32, RC522, Flask, MySQL).
- **Project Lead (2nd Year) — Fluorescent material from plastic waste.** Development of a fluorescent material through plastic-waste valorisation.

LEADERSHIP & RESPONSIBILITIES

- **Class President** — Master 1 Power Engineering, UNIKIN (2025 – present).
- **Minister of Communication & Press** — Faculty Delegation, Faculty of Engineering UNIKIN (2025 – present).
- **Deputy Delegate, MIEC Polytechnic** — UNIKIN (2025 – present).
- **Deputy Class President** — 2nd Year, Electrical & Computer Engineering, UNIKIN (2021 – 2022).

TECHNICAL SKILLS

Languages	HTML, CSS, JavaScript, TypeScript, PHP, Python.
Frameworks	Angular, NestJS, ExpressJS, Django.
Databases	MySQL, MongoDB.
Tools	Git, GitHub, Figma, WordPress, Bootstrap.
Electrical	Power systems, electrical machines, power electronics, automatic access control.
Graphic design	Posters, flyers, invitations, magazines and institutional visual assets.

LANGUAGES

Language	Level
French	Native
Lingala	Native
English	Fluent (spoken & written)

I, the undersigned, certify that, to the best of my knowledge, the information above accurately reflects my situation, qualifications and experience.
